Instructors

Abiodun Egwuenu

Medical doctor, field epidemiologist & researcher specialising in antimicrobial resistance (AMR). National lead for Nigeria's mpox response (2022/23). PhD candidate at Charité – Universitätsmedizin Berlin.

Harsha Halgamuwe Hewage

Researcher, Data Lab for Social Good, Cardiff Business School. Works on forecasting & decision support under uncertainty for public health supply chains, with JSI, USAID and the HISP Centre, Oslo. Delivers F4SG training and researches time series foundation models.

Mustafa Aslan

Third-year PhD researcher, Data Lab for Social Good, Cardiff University. Researches hospital discharge delays and patient flow, combining probabilistic forecasting, sequential optimization and ML-based causal inference. Developer of the `peshbeen` forecasting package. Part of the team placing joint first in the 2026 NHS SPHERE-PPL forecasting challenge.

🐙 @mustafaslanCoto

- Abiodun Egwuenu

Planning team

- Mkajuma Charity
- Kennedy Mung'are
- José Thiéry Hagbe

Mentors

- Samson Oluwafemi
- Oluchukwu Aghadi
- Lumumba Victor
- Adamu SAIDU Saleh
- Akoeugnigan Idelphonse SODE
- AKOUNDA Badjibassa

Coordinator

- Henry Kissinger Ochieng

Assumptions

- This is not an introduction to R. We assume you are broadly comfortable with R code, the RStudio environment and the tidyverse.
- This is not a statistics course. We assume you are familiar with concepts such as the mean, standard deviation, quantiles, regression, normal distribution, likelihood, etc.
- This is not a theory course. We are not going to derive anything. We will teach you time series and forecasting tools, when to use them, and how to use them most effectively.

<https://dfep.netlify.app/>

- Free and online
- Not an in-depth technical book
- Mindset behind forecasting
- Overview of forecasting methods and processes

International Institute of Forecasters (IIF)

- Certificate will be provided by IIF. You need to attend all lectures and exercise sessions to get the certificate.
- a nonprofit organization founded in 1982, is dedicated to developing and furthering the generation, distribution, and use of knowledge on forecasting

Forecasting for Social Good committee

- Use #AFRICAST, #F4SG if you post on social media about the workshop

Poll: How proficient are you in using R?

- 1 Guru: The R core team come to me for advice.
- 2 Expert: I have written several packages on CRAN.
- 3 Skilled: I use it regularly and it is an important part of my job.
- 4 Comfortable: I use it often and am comfortable with the tool.
- 5 User: I use it sometimes, but I am often searching around for the right function.
- 6 Learner: I have used it a few times.
- 7 Beginner: I've managed to download and install it.
- 8 Unknown: Why are you speaking like a pirate?

Poll: How experienced are you in forecasting

- 1 Guru: I wrote the book, done it for decades, now I do the conference circuit.
- 2 Expert: It has been my full time job for more than a decade.
- 3 Skilled: I have been doing it for years.
- 4 Comfortable: I understand it and have done it.
- 5 Learner: I am still learning.
- 6 Beginner: I have heard of it and would like to learn more.
- 7 Unknown: What is forecasting? Is that what the weather people do?

Install required packages

```
install.packages(c(  
  "tidyverse",  
  "fpp3",  
  "GGally",  
  "ggtime",  
  "mixtime",  
  "astsa"  
))
```

Approximate outline

Session	Topic	Chapter
1	1. Basics of time series and data structures	2
1	2. Time series patterns and basic graphics	2
2	3. Computing and visualizing features	4
2	4. Basic modeling / forecasting	1,3,5
3	5. Forecasting with regression	7,10
3	6. Exponential smoothing	8
4	7. ARIMA models	9
4	8. Basic training and test accuracy	5
5	9. Residual diagnostics and cross validation	5
5	10. Time series foundation models	–

<https://workshop.f4sg.org/africast/>

Schedule for each session (UTC+3)

- Start at 10:00 a.m.
- Lecture 1: 10:00 - 11:30
- Break: 11:30 - 11:45
- Lecture 2: 11:45 - 13:15
- Exercises: 14:00 - 17:00 (on your own)
- Mentorship: 17:00 - 18:00
